

AYNA

See **yourself**  
in any outfit

Ayna is **scaling**  
**inclusivity** in fashion  
by enabling everyone  
to see themselves in  
any outfit.

# Future vision

- Move to a try-on experience that emphasizes whole outfits as opposed to single items
- Eventually make Ayna your personal stylist that picks personalized outfits for you
  - How to style items together – what looks good on you – existing and new
  - Explore more brands that match your style and budget
  - Get inspiration from current and historical fashion trends
- Good for consumer (better experience) and clothing brands (more sales)
